2. There are options to search by **All, Drug, Disease,** or **Toxicology** content. Intelligent search provides suggestions for spelling errors and direct access to **Dosing, Adverse Effects, Indications, Interactions,** and focused searches for **Drugs that treat,** and **Drugs that cause**
3. Quick and easy access to **Download Mobile Apps**

Search Landing Page

1. **Drug Classes** links and **Routes** summary are always displayed
2. **Quick Answers, In-Depth Answers,** and **All Results** are provided
3. Active headings provide direct access to specific sections of content
4. Intelligent search retains the last search term
5. Direct access to Salt/Base drug formulations when available
6. Access to **Related Results** within core content sets and other data sources will be returned *in-context* with the search term

In-Depth Answers and All Results

1. Navigate between **Quick Answers** and **In-Depth Answers** using the hyperlink to remain in same section being viewed
2. This page contains direct access to **View Full Document** and **Print**
3. Easy access to **Expand** or **Collapse** to customize viewing area
4. **All Results** include **Related Results** and **Filter by** subject

Full Document Searching

1. Enter a search term to identify and navigate to all instances of the term
2. The active term is highlighted orange to identify where you are in the document; next and previous terms are highlighted yellow
3. Navigate to specific sections within full document

Drug Interaction Searching

1. From the Toolbar, select the **Drug Interactions** tab
2. Type the drug name (brand or generic) in the **Search** field
3. **Select** the drug and click the **Add** (right arrow) button, or remove the drug by clicking the **Remove** (left arrow) button
4. **Add Allergies**, if known
5. Once all drugs are added, click the **Submit** button at the bottom right of the screen

IV Compatibility Searching

1. From the Toolbar, select the **IV Compatibility** tab
2. Type the drug name (brand or generic) in the **Search** field
3. Select the drug and click the **Add** (right arrow) button, or remove the drug by clicking the **Remove** (left arrow) button
4. Repeat the process until all drugs are added, then click the **Submit** button at the bottom right of the screen

FDA and Non-FDA Uses (On-/Off-label Indications and Dosing)

1. From the section headings, access **FDA Uses** or **Non-FDA Uses**
2. **Non-FDA Uses** reviews the indications and associated **Strength of Recommendation** and **Strength of Evidence** in **Quick Answers**
3. If dosing is required, select **Adult** or **Pediatric Dosing** and review **Quick Answers**
4. If off-label dosing is not listed in Quick Answers, select **In-Depth Answers**. Then click on the desired indication to review dose recommendation
5. Availability of off-label dosing is evidence-based; not all off-label indications will have a dosing recommendation
